NAC Linear Fixtures

Simple solutions for big savings. NAC's LED linear fixtures provide crisp, uniform light, ideal for a wide variety of commercial and industrial applications. With a range of LED battens and linear channel luminaires, these fixtures are an excellent alternative to traditional fluorescent lighting.

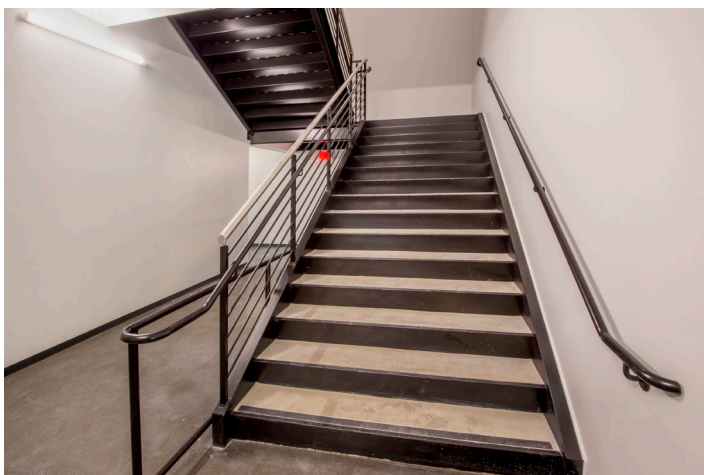

BATTEN LUMINAIRES

Providing the safety and security of light when you need it – saving energy when you don't. NAC's LED batten fixtures provide crisp, clear light when motion is detected and dim to 33% output when it isn't, saving money and energy. With heavy-duty, powder coated, galvanized metal housings and the option for surface or suspended chain installation, NAC LED battens are ideal for stairwells, passageways and parking garages, or any area with intermittent traffic. The Batten Luminaire with Emergency Backup (99585) features an integrated long life battery, including test switch, which provides functional light for a minimum of 90 minutes in the event of power loss. Backed by a 5-year limited warranty, NAC LED battens have an estimated design lifetime of 50,000 hours, resulting in reduced maintenance and replacement costs when compared to fluorescent fixtures.

FEATURES & BENEFITS

- Dual infrared motion sensors – mounted on each end of fixture for accurate motion detection, rotate to optimize desired coverage
- Bi-level operation – 3000lm/26W full on, 1000lm/8.6W standby mode
- Batten with Emergency Backup (99585) features an integrated long life battery, including test switch, which provides functional light for a minimum of 90 minutes in the event of power loss
- On time and detection zone are adjustable using optional remote control (Sold separately: #98892)
- Ideal for stairwells, passageways, parking garages
- High efficacy
- Heavy-duty, powder coated galvanized metal housing
- Suitable for surface or suspended (chain) mounting; side and base knockouts provided for ceiling or wall mounting
- Includes mounting hardware: junction box adapter plate, v-hooks and chain
- 100-277V compatible
- Available in 5000K
- 50,000 hour minimum design lifetime
- 5-Year Limited Warranty

LINEAR CHANNEL LUMINAIRE

Lighting made simple. NAC's LED linear channel luminaires provide crisp, uniform light, ideal for a wide variety of commercial and industrial applications. Highly-efficient, these fixtures are cost-effective replacements for 4 ft. or 8 ft. fluorescent tube fixtures in high-traffic, constant light areas – saving up to 50% in energy costs. NAC LED Linear Channel Luminaires come standard with 0-10V dimming and are compatible with most sensors and systems used to achieve further energy savings. Featuring durable powder coated steel housings with integrated LED channel, these luminaires are easy to install with multiple screw slots and knockout locations. Backed by NAC's 5-year limited warranty, the LED Linear Channel Luminaires have a rated life of 50,000 hours, resulting in reduced maintenance and replacement costs when compared to fluorescent fixtures.

FEATURES & BENEFITS

- Can replace 4 ft. or 8 ft. fluorescent tube fixtures
- High efficacy – saves up to 50% in energy costs compared to fluorescent
- Frosted diffuser minimizes glare for optimal comfort
- Excellent solution for a variety of environments including warehouses, manufacturing facilities, parking garages, storage areas and more
- Available in 4000K and 5000K
- Durable powder coated steel construction with integrated LED channel
- Simple surface mount installation with multiple screw slots and knockouts. Jbox adapter included.
- 0-10V Dimming – supports compliance with Title 24
- 120-277V compatible
- 50,000 hours rated life
- 5-Year Limited Warranty

LINEAR CHANNEL LUMINAIRE WITH QUICK CLIP INSTALLATION

Lighting made simple. NAC's LED Linear Channel luminaires provide crisp, uniform light, ideal for a wide variety of commercial and industrial applications. Now with quick clip installation, these luminaires are easy to install, saving time and reducing labor costs. The included mounting brackets simplify the installation process, eliminating the need to access the inside of the fixture housing and allowing one person to quickly install the fixture. Highly-efficient, these luminaires are cost-effective replacements for both wall-mounted and suspended fluorescent fixtures, saving up to 50% in energy costs. Available in 4 ft. and 8 ft. lengths, NAC LED Linear Channel luminaires come standard with 0-10V dimming and are compatible with most sensors and systems used to achieve further energy savings. Backed by NAC's 5-year limited warranty, the LED Linear Channel Luminaires have a rated life of 50,000 hours, resulting in reduced maintenance and replacement costs when compared to fluorescent fixtures.

FEATURES & BENEFITS

- Quick clip installation – easily install luminaire without having to access inside of fixture housing
- Can be easily suspended using suspension kit (70300)*
- 4 ft. and 8 ft. lengths available
- 130 lm/W, DLC Premium – saves up to 50% in energy costs compared to fluorescent
- Frosted diffuser minimizes glare for optimal comfort
- Excellent solution for a variety of environments including warehouses, manufacturing facilities, parking garages, storage areas and more
- Available in 4000K and 5000K
- 0-10V Dimming – supports compliance with Title 24
- 100-277V compatible
- 50,000 hours rated life
- 5-Year Limited Warranty

*Sold separately. Includes (2) 4 ft. cables with "V" hooks. 8 ft. fixture requires (2) kits for suspension.
