

NAC Double Ended Ballast Bypass T8 LED Tubes

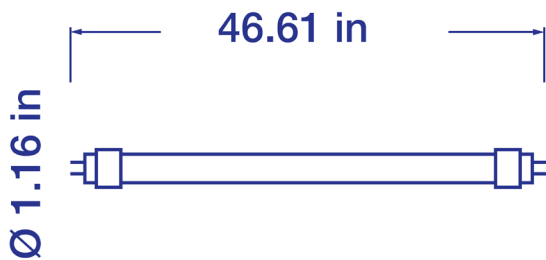

Reduce installation time and cost while maintaining safety with double ended ballast bypass T8 LED Tubes from NAC. These high-efficacy lamps use up to 63% less energy compared to fluorescent lamps with ballasts. These rigid glass tubes are available in frosted glass or glass with PET film. The PET coating contains fragments in case of breakage and makes these tubes ideal for food processing environments. These tubes are also compatible with both shunted and non-shunted tombstones; no additional rewiring is required. NAC T8 LED tubes have a design lifetime of 50,000 hours, resulting in reduced maintenance and replacement costs. DLC Qualified, NAC double ended ballast bypass T8 LED tubes are backed by NAC's 5-year limited warranty.

FEATURES & BENEFITS

- Double ended ballast bypass T8 tube - reduce installation time and cost while maintaining safety
- Rigid glass tube - available in frosted glass or glass with PET film
- Compatible with both shunted and non-shunted tombstones - simply bypass ballast and replace tube; no additional rewiring required
- Ballast bypass required - enhancing system reliability and efficiency
- Semi-frosted appearance produces comfortable light and reduces glare
- Replaces 4 ft. 32W T8 fluorescent lamps
- Available in 4000K and 5000K
- Low bare lamp wattage, up to 150 lm/W - maximizes return on investment
- Energy efficient, long-lasting LED - up to 63% reduction in energy costs compared to traditional fluorescent tubes
- 50,000 hours rated life
- 5-year limited warranty
