

Experience the Difference of NAC LED Panels!

Our panels provide maximum quality over a lifetime of use. These high-quality, UL listed panels are suitable for damp locations, designed to last 50,000 hours, and have a 5-year limited warranty. Lightweight and ultra-thin, our panels are available in 2' x 2' and 2' x 4' sizes, fitting easily into standard T-bar grid ceilings.

Our CCT Selectable LED Panels have all the above features and more:

CCT Selectable LED Panels

NAC CCT Selectable LED Panels offer high performance and versatility for both retrofit and new construction.

Featuring a backlit design, these panels include LEDs with PMMA micro-optic lensing to create comfortable and uniform light. Easily switch between 3500K, 4000K and 5000K color temperatures during installation to create the perfect look and feel for your application.

Thin and lightweight, NAC CCT Selectable LED Panels are an ideal, cost-effective solution for offices, schools, healthcare environments and more.

FEATURES & BENEFITS

- CCT selectable – panels easily switch between 3500K, 4000K and 5000K
- Precision micro-optics create uniform, glare-free light evenly distributed over entire panel
- Lightweight and ultra-thin (1.5") – ideal for both new construction and retrofit applications
- High quality construction – steel housing and white powder coated steel frame create the ultimate in durability
- 110 lm/W – cost-effective solution for high lumen output
- High efficiency, dimmable driver (0-10V)
